FOR IMMEDIATE RELEASE

Horizon Science Academy Dayton Downtown Asked to Display Artwork at Museum Center Every Year

Dayton, OH December 16, 2014- Students at Horizon Science Academy Dayton Downtown were invited for the second year in a row to showcase their artwork outside of the Children's Museum in Union Terminal. Students had such a great response to last years' show that the museum center asked for the students to showcase their artwork every year! This year the theme for the show was "Mummies Around the World". In art class students researched different cultures and ceremonies surrounding the mummification processes to help inspire them to create their artwork. Students could choose to create a drawing, painting, or collage about what they learned. Mrs. Nugent and the students at Horizon Science Academy would like to thank the Cincinnati Museum Center for giving us the opportunity to display our artwork!

Students from Horizon Science Academy Dayton Downtown are taking fieldtrips today and tomorrow to go see their artwork displayed at the museum. They are also going to be able to explore the Cincinnati Museum Center with their classmates.
